Preliminary Statement:

I do not have a professional CV, as most of my working life I have been self-employed or transitioned to a consultant in an industry I know very well. There has never been a need for a CV.

Please find below a summary of my working life. You can see that many times in my life I have worked at 2 endeavors.

Currently I am fully involved in the mining company, Dominion Gold Resources and let my partner in the development company run that enterprise.

This has given me the time to become involved with Apache Mill Tailing which has an exceptional opportunity and I am excited to be part of it.

Personal Information:

Born: July 23, 1954

Citizenship: Canadian

Health: Excellent

Marital Status: Married, father of two children aged 30 and 31

Employment History:

After attending Lord Byng High School, I worked in the construction industry supply business for a time and then decided to start my own company. My early working life has largely been as an entrepreneur in the general contracting business and in the police and paramedic services with the last several years devoted to gold mining with an emphasis on efficacy through modernization and ecologically friendly methods.
